Send your kid to university this summer! Designed especially for Grades 4, 5, and 6 (campers going into Grade 4 or 7 are eligible), UFV's Science Rocks! camps are fun and an awesome learning opportunity for your kids.

Each camp week is different! Kids get to learn something new, see real science labs, play outside, and experiment with fun activities that explore physics, biology, chemistry, mathematics, and computer science. Many of the weeks will also include geography and kinesiology activities.

CAMP 1 (Abbotsford)
JULY 10-14: Light 'em up!

Each day, one or two of the activities will focus on things that glow, interesting behaviours of fire and light, or even safe explosions!

CAMP 2 (Abbotsford)
JULY 17-21: Patterns, Puzzles, & Pedigrees!

Each day, one or two of the activities will focus on math, mystery, and genetics!
