# Kahoot!

## Grades 5-6

- Reflecting on the year
- Playing Battleship to reinforce grid coordinate skills
- Learning how to organize files using OneDrive in Office 365

## Reading News

This week students will receive notices for all the books they currently have checked out. Although the books may have due dates ranging from earlier in the year up to the very end, the goal is to have all these books returned by June 25<sup>th</sup>.

To keep our library collection as new and relevant as possible I have recently weeded out some older picture books. While these books are older, they are in good condition and I would like to give students a chance to take a book home free of charge. If you see a library book that comes home with the bar code crossed out in black marker, this is one of these books.

Please note that our local public library as part of the FVRL offers families a Summer Reading Club Program. This program encourages students to check out and read books, and then track their progress to unlock reading badges and be entered into prize draws. If interested, please go [here](#) for more information.
